

TOBACCO FOLLOW-UP - NOTES AND COMPUTED VARIABLES

The Tobacco Usage Follow-up form was completed for participants who answered 'yes' to any regular use of tobacco (past or present; the data are found in the file C1F09TOB. The data include: follow-up questions 2.01 - 2.05 and 2.07 - 2.13 (cigarette), 2.06 (brand-specific information), 3.01 - 3.02 (cigar), 4.01 - 4.02 (pipe) and 5.01 (smokeless tobacco). This file contains at most one (1) record per participant.

Brand-specific information is only obtained from current smokers and only one brand is allowed. Therefore, unlike Exam 1 and Exam 2, this file will not contain multiple records for a participant.

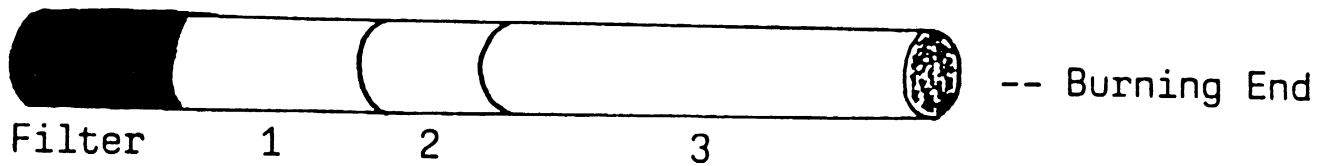

A copy of the cue card used for question 2.07 is provided on the following page.

Interviewer ID is not included in this file. This variable was inadvertently excluded from the data entry system.

**NOTE:** The smoking status variable (C10SMOKE) is contained in the C1F10 file.

CUE CARD SHOWN TO PARTICIPANT FOR QUESTION 2.07

2.07 Point on the diagram how far you let your cigarette burn when you smoke (smoked).
